NexaWorks - Enterprise CRM Platform Proposal

Balanced delivery with a best-in-class implementation plan and support model.

1. Executive Summary

Northwind Retail Group (the Client) is seeking to replace its legacy on-premises customer management system with a cloud-based Enterprise CRM platform. The solution must manage approximately 5 million customer records, support 2,000 concurrent users, integrate with the Client's SAP ERP and Mailchimp email platform, and meet SOC 2 Type II and GDPR requirements. The target implementation window is 12 months with a budget range of USD 400,000 to USD 900,000.

NexaWorks proposes a balanced, modular CRM platform with the strongest implementation plan and support model of this procurement. Our approach combines a robust technical foundation with a detailed, risk-managed rollout and a 24/7 support commitment.

Our total price is USD 640,000 with a nine-month delivery schedule.

2. Proposed Solution and Implementation Approach

NexaWorks delivers a modular CRM with phased rollout, strong change management, and a well-documented integration approach for SAP ERP and Mailchimp.

- Modular architecture allowing incremental feature rollout.
- Five-phase implementation with clear exit criteria per phase.
- Dedicated change management and user adoption workstream.
- Formal risk register reviewed monthly with the Client.

3. Timeline, Team Structure and Milestones

Delivery is planned across five phases over nine months.

- Team of 12 including a change manager, data lead, and two integration specialists.
- Risk plan covers data quality, timeline slippage, and adoption.

Phase	Milestone	Month
Phase 1	Discovery and requirements baseline	1
Phase 2	Foundation build and data migration	2-4
Phase 3	Integration and configuration	5-7
Phase 4	User acceptance testing	8
Phase 5	Cutover, training and hypercare	9

4. Price Table and Assumptions

Assumptions: pricing is valid for 90 days; includes standard data migration; 24/7 support is included in the license fee.

Item	Amount (USD)
Software licenses (annual)	260,000
Implementation services	290,000
Integration (SAP + Mailchimp)	60,000
Training and change management	30,000
Total	640,000

5. Security, Compliance and Risk Controls

- SOC 2 Type II certified.
- GDPR compliant with EU data residency.
- AES-256 encryption at rest, TLS 1.2+ in transit.
- SSO, MFA, role-based access, and audit logging.
- Annual independent penetration testing.

6. Support Model, Experience and References

NexaWorks includes 24/7 support with a 99.9% uptime SLA and a dedicated customer success manager as standard.

- Twenty CRM implementations, including eight enterprise clients.
- References available from three enterprise clients.
- Strong support model with 24/7 coverage included.
